E3
GROUP

Known for their Unique designs, alliances and versatile product range, I, Saif Ali Khan, am excited to be associated with E3 Group as their brand ambassador. Together we will work to turn your dreams into reality!

Saif Ali Khan

Under the guidance of **Shri Sanjay Garg (CMD)**, the **E3 Group** was founded in **1990** and has grown from a small plywood business in Delhi into one of India's leading manufacturers. With over three decades of experience, **E3 Group** offers a diverse range of innovative products for interiors and exteriors, including **E3 HDMR MDF, Edge Band, Interior Clads, Exterior Clads, Laminates, Panels, Modular Kitchens, Hardware, Pu Stone, Soffit Panels, Pet Acoustic Panels, Plywood, ACP, HPL, Artificial Grass, Sports Turf**, etc. **E3 Group** delivers solutions that are durable, cost-effective, and of exceptional quality. Recognizing India's reliance on imported goods, we have a strong commitment to the 'Made in India' vision. Today, the E3 network spans major cities nationwide, with a robust presence of over 6,000+ dealers, distributors, and retailers.

CORPORATE PHILOSOPHY

Elegant | Everlasting | Economical

We believe in fostering a culture of innovation and embracing change. Our philosophy is continuously exploring new ideas, technologies, and processes to stay ahead of the curve and deliver cutting-edge solutions. We endow this through collaboration and teamwork by nurturing an environment where individuals work together, share knowledge, and leverage their diverse skills and perspectives to achieve common goals. Striving to create innovative and inspiring spaces seamlessly blending functionality, aesthetics and sustainability. As our company continues to evolve and grow, these core values remain constant.

"We offer to elevate your space with better, more functional interior and exterior solutions."

VISION

Enhancing India one state at a time

Our vision is to create a global impact by shaping skylines, redefining architecture, and transforming interiors. We aim to inspire designs that merge innovation with functionality, contributing to the continuous advancement of the architectural and interior industry.

MISSION

Businesses must remain focussed on producing value

Our mission is to deliver cutting-edge, reliable, and sustainable solutions for exterior and interior applications. By offering superior quality products made in India, we strive to improve building strength, enhance beauty, and redefine durability. With a focus on creativity and dependability, we create spaces and objects that resonate deeply with every individual.

CORPORATE OBJECTIVES WE ASSURE BEST QUALITY

Excellence: We are committed to invest in our employees' development and growth. By nurturing their workforce, we drive innovation, enhance productivity, and foster a positive work environment.

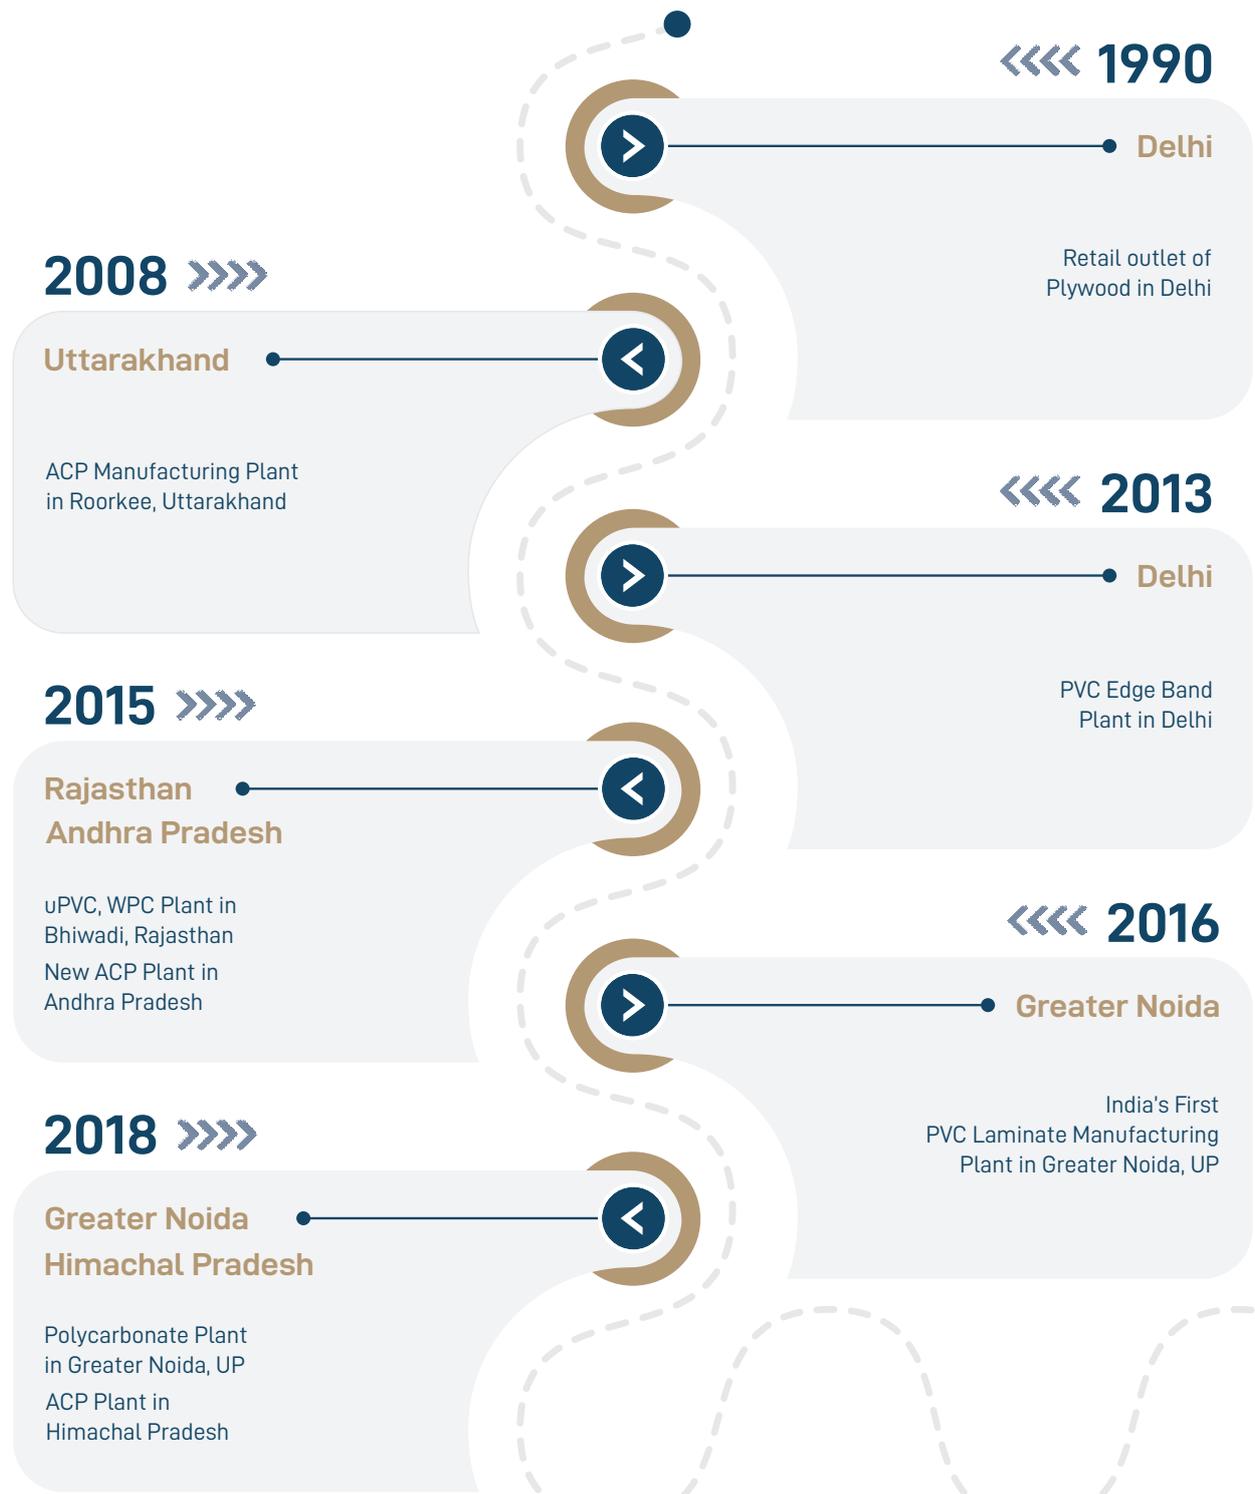

Elegance: We aim to create products and services that are visually appealing, well-designed, budget and user-friendly. This includes aesthetically pleasing details, sleek and intuitive interfaces, and an overall sense of sophistication in the product's appearance.

Quality: At E3 quality objectives are set to ensure that the company consistently meets & exceeds customer expectations, enhances customer satisfaction, and maintains a competitive edge in the market.

Integrity: We prioritize ethical conduct throughout our operations through honesty, fairness, respect for partners & employees, and compliance with legal and regulatory requirements.

Economical: E3 focuses on achieving efficiency, cost-effectiveness, and optimal resource utilization. Through set objectives to control and reduce costs across our operations we promise to deliver best 'Made in India' products.

OUR JOURNEY TOWARDS INNOVATION

E3 Group, with years of exceptional experience, is setting high standards in the market. Initially, we started as a single plywood firm in New Delhi. From just a plywood firm covering 600sqft, E3 transformed into India's leading manufacturer of interior and exterior products with dealers and distributors in PAN India. E3 believes in Made in India world-class quality products by "Delivering promise and exceeding expectations". It has helped us to design & deliver contemporary products that have become synonymous with modern living. E3 Group produces eco-friendly products to save earth's green lush which is also the perfect replacement of wood.

INFRASTRUCTURE

At A Glance

E3, with its decades of experience, has successfully consolidated its position as a leading manufacturer of interior and exterior products. With its manufacturing units expanding in various states, Delhi, Uttarakhand, Uttar Pradesh, Himachal Pradesh & Andhra Pradesh, E3 products are among the most favoured and highly recommended.

INFRASTRUCTURE

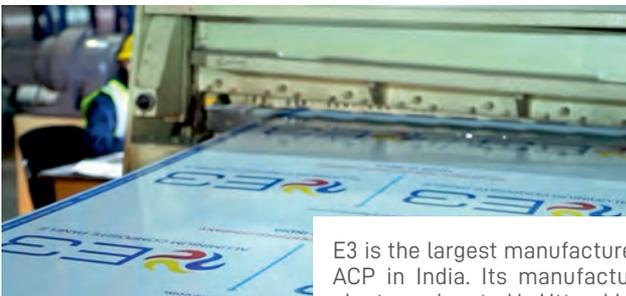

E3 Manufacturing Facility, located in Kashipur, Uttarakhand, committed to setting new industry benchmarks through state-of-the-art European machinery for wood chipping, wood fibre refinement, and continuous pressing. Our facility can produce 550 cubic metres of high-quality wood products per day.

MDF MANUFACTURING PLANT

PVC EDGE BAND MANUFACTURING PLANT

We are one of the leading Edge Band Producers. With a state-of-the-art 2 lac sq feet facility in Greater Noida, UP, and Hindupur, the production capacity is 10 lac meters daily. Offering endless colors, patterns, and custom options, we ensure a strong PAN India presence through dealers and suppliers.

E3 is the largest manufacturer of ACP in India. Its manufacturing plants are located in Uttarakhand, Andhra Pradesh, Uttar Pradesh, and Greater Noida. With a production capacity of 4 million sq.mt. per annum, E3 is the first to establish an ACP manufacturing plant in South India.

ACP / HPL MANUFACTURING PLANT

CLADS MANUFACTURING PLANT

Located in Greater Noida, UP Clads manufacturing unit has a production capacity of 96 million sq ft per annum. Our Interior & Exterior Clads and Mouldings are designed with 100% tested and certified material and are available in wide variants of elegant collections to fit architectural and design requirements.

ARTIFICIAL GRASS MANUFACTURING PLANT

Artificial Grass has swayed the Indian industry with its variants and newly introduced Sports Turf. Production facility located in Hapur, Uttar Pradesh, produces 20 million sq. ft. per year. The yarn produced is made safe for children and pets using polymers like PP and PE.

PVC LAMINATES MANUFACTURING PLANT

We are India's first and largest producer of PVC laminates. Our manufacturing facility, located in Greater Noida, Uttar Pradesh, can produce 1.5 million sheets annually with more than 500 different designer laminates throughout India. The PVC laminate brands of E3 are Sky Decor, Mozaic, and Imperia.

DECORATIVE LAMINATES MANUFACTURING PLANT

Our plant, which is 1,80,000 square feet in size is located in Hapur, Uttar Pradesh, produces 40 lac laminate sheets each year that are 100% phenolic and urea free. We have recently introduced 1mm Laminates and aim to introduce premium, exclusive European paper laminates made in India.

HARDWARE MANUFACTURING PLANT

Located in Ecotech, G. Noida, UP, our new hardware manufacturing unit spreads over 75 000 sq. ft. with a production capacity of 35 million inches per year in Telescopic channels & Soft Close channels and 28 million pcs of 3D hydraulic & 2D SS soft close hinges with fully automatic top-of-the-line machines.

QUALITY TEST & CERTIFICATIONS

Uncompromising Quality, Unparalleled Service

E3 group has achieved several credible certificates from regulatory bodies like the ARAI test certificate, ISO certificate, IIT Bombay test certificate, and other prestigious certificates of guaranteed quality. The authorized testing department manufactures and tests all products per strict protocol. The Research and Development department is dedicated to continuously developing new Make in India product variants while upholding the highest quality standards.

GROUP BRANDS: Powering Progress, Together

E3 Group Brands are regarded as top-notch by every architect, interior designer, and carpenter in the country. By establishing a trend and benchmark for quality, styles, variety, etc., all the brands guarantee going above and beyond what the market expects.

E3 TURBO PLY

(100% BWR)

E3 Turbo Ply is a 100% BWR plywood engineered with phenolic resin for superior water resistance and bonding strength. Its gapless construction and fully calibrated core panels ensure uniformity and durability. Enhanced with anti-viral, anti-fungal, termite, and borer resistance, it is built for demanding applications.

E3 Energy MR plywood is designed for moisture-resistant interior use, combining phenolic resin bonding with gapless construction. Fully calibrated core panels provide precision and stability, while anti-viral, anti-fungal, termite, and borer resistance ensure hygienic and long-lasting performance. Proudly made in India for dependable everyday interiors.

E3 ENERGY

MR

E3 DELTA GURJAN

MR

E3 Delta Gurjan MR plywood features a premium Gurjan face supported by phenolic resin technology. Its gapless build and fully calibrated core panels deliver strength and dimensional accuracy. With moisture resistance and protection against viruses, fungus, termites, and borers, it is crafted for refined, durable interior spaces.

PET Acoustic Panels are lightweight, durable sound-absorbing solutions made from recycled PET (polyethylene terephthalate), often sourced from plastic bottles. They provide high sound absorption (NRC ~0.8-0.9), resist moisture and mold, and are eco-friendly, non-toxic, customizable, and easy to install.

E3 PET Acoustic Panels are crafted with 40% recycled PET fibre and available in a wide range of colors, making them ideal for acoustic, ceiling, paneling, partition, and flooring applications. They offer exceptional durability, moisture resistance, and design flexibility, in 8ft x 4ft sheets with 9mm, 12mm, 18mm, and 24mm thickness options.

SPECIFICATIONS

SLIM BOX

E3 Slim Box systems redefine modern storage with smooth movement, high load capacity, and a clean, minimalist profile. Engineered for precision and durability, they offer silent operation and effortless access. Ideal for contemporary kitchens and furniture.

New
Launch

DELTA TELESCOPIC CHANNELS

Built with European technology, these telescopic channels offer superior smoothness and precision. Made from premium cold-rolled steel with CED and zinc coating, they ensure durability and rust resistance. With a 35-40 kg load capacity and sizes from 10-20 inches, they guarantee reliable performance.

SOFT-CLOSE TELESCOPIC CHANNELS

Combining European precision with German technology, Soft-Close telescopic channels ensure smooth, silent operation. A high-tech damper and ball bearings enhance durability, while a concealed design adds elegance. Made from premium steel, they support 35-40 kg, come in 10-24 inches, and offer a 7-year lock warranty.

NOVA

E3 Soffit Nova Panels are built for modern interiors, combining durability, safety, and style. Available in 10 wooden shades, these lightweight panels feature interlock installation and are 100% waterproof, termite-proof, antibacterial, fire-retardant, and impact-resistant. With a 15-year warranty and eco-friendly, lead-free design, they offer lasting, sustainable performance.

KYRO

E3 Soffit Kyro Panels offer a high-performance solution tailored for residential and commercial spaces. These lightweight, matte-finish panels come in 16 shades and feature interlock installation. Waterproof, termite-proof, antibacterial, fire-retardant, and impact-resistant, they suit high-traffic areas. Lead-free, recyclable, and backed by a 15-year warranty, they ensure lasting, sustainable quality.

E3 Soffit Panels offer a perfect blend of precision, performance, and visual appeal for modern interiors. Suitable for homes, offices, and commercial spaces, these panels come with advanced interlock technology that ensures easy installation and a seamless finish. Crafted to mimic the real wood look, they are lightweight, waterproof, anti-bacterial, VOC-free, and recyclable—making them a safe and sustainable choice. Available in a wide range of textures, colours, and patterns, E3 Soffit Panels provide a durable and low-maintenance solution for ceilings and interior wall applications. Built for comfort and designed with elegance, they bring lasting value to any space.

DREAM IT. DESIGN IT. LIVE IT.
